Platt; Third: Rush Burgess; Fourth, W. H. H. Stowell; Fifth, C. B. Thomas; Sixth, George W. Henderlite. From this it will be seen that the nomination in the Third District of Jambler Smith by one of the Conventions held yesterday is ignored. Candidates in two other districts remain to be nominated.

AMONG OUR MILLS.

Items of Interest to Iron Workers.

(From the American Manufacturer.)

GRAFF, BENNETT & Co. are erecting a 77x103 feet wing to their Millvale rolling mill.

ALL the South Side mills are as busy as ever, except that of McKnight, Duncan & Co. The statement to the contrary is incorrect.

THE Beaver Falls Cutlery Company recently made a donation of four gross of knives and forks to the Home for the Friendless in Erie.

THE Penn Glass works, put in operation some three months ago, are doing a good business, turning out about 900 dozen lamp chimneys daily.

THERE are large numbers of articles of utility made in this country that were never seen or heard of in European and other foreign States, which if introduced, would find ready sale.

SOHO FURNACE has been blown out and is being relined with Mt. Savage fire-brick. Isabella No. 2 is also being relined, and with the same make of fire-brick. Six of Pittsburgh's 11 furnaces are now out.

EMERSON, FORD & Co., of Beaver Falls, carried off the prize in the saw contest, at the Cincinnati Exposition, on the 29th ult. There were ten other competitors. The prize was $100 in gold, and the saw that won it was a solid tooth one, and the plate was manufactured by Singer, Nimick & Co., of this city.

THERE are 21 window glass factories in Pittsburgh, as follows: Cunninghams & Ihmsen, 1; Wolfe, Howard & Co., 2; C. Ihmsen & Sons, 1; Wm. McCully & Co., 2; Robt. C. Schmertz & Co., 2; Phillips & Co., 2; S. McKee & Co., 1; A. & D. H. Chambers, 2; Stewart, Estep & Co., 2; Thos. Wightman & Co., 3; Duff & Campbell, 1; Knox, Kim & Co., 2. All these are in operation except four.

WE LAST WEEK republished from the *Bulletin* of the Iron and Steel Association a table giving the wages at blast furnaces, which showed that higher wages were paid here than at any other point in the country. Since then wages have been cut down at the Lucy furnace, commencing the 1st inst. as follows: Keepers, $2.50; helpers, $2.00; barrowmen, $1.75; metal-carriers, $2.00, cindermen, $1.50; laborers, $1.50; engineers, $2.50; firemen, $2.00; tap-chargers $1.80.

THE list of rolling mills in the United States, including the Pacific coast, recently issued by the Iron and Steel Association, and which gives the capacity of the respective mills, reveals the fact that during the years 1863 and 1873, inclusive, the capacity of rolling mills for iron was increased by the erection of absolutely new mills over *one million tons*. The Fulton Foundry, (Totten & Co.,) of this city, furnished the machinery for new mills during this period whose capacity is given at over 400,000 tons, or *over four-tenths of the entire increase*. This product, which does not include the new machinery furnished by them during these years in the way of additions to mills erected before 1863, is believed to be unequaled in the same space of time.

A COMPANY styled the Harvest Queen Reaper and Binder Company has been organized in this city for the purpose of manufacturing the Champion Combined Reaper and Self-Binder, an implement that perhaps has no superior, if indeed a peer, in its line. The capital of the company is $300,000, divided into 3,000 shares of $100 each, operations to be commenced when $100,000 has been subscribed, and no subscriptions will be binding until that amount has been subscribed. The incorporators are J. H. White, attorney; C. J. Hillard, M. E.; J. H. Heimbucher, of Kloman, Park & Co.; John J. Wilson, of Wilson, Leggate & Co.; I. N. Miller, president Atlas works; Charles Seibert, cashier German-American Bank; H. D. Seitz, secretary Householders Insurance Company; William B. Sterrit, master founder. There is no better place than Pittsburgh for the location of such a manufactory, and this fact in connection with the character of the incorporators is a fair guarantee of the success of the enterprise.

GERMANY.

Count von Arnim.

LONDON, October 8.—A special from Berlin says: The Von Arnim affair has taken a very serious turn. The Emperor has ordered that no stone be left unturned in the efforts to recover the missing documents.

BERLIN, October 8.—Count von Arnim had an interview with his son and a Government official yesterday. In the course of the conversation the Count protested against the insinuation that he had published or intended to publish any of the documents retained by him. He asserted that there were no state secrets contained in the papers. He also said that he noticed in the spring that there was a deficiency in the documents belonging to the archives of the Paris embassy.

LONDON, October 8.—A special to the *Standard* from Berlin states that in consequence of domiciliary visits to the residences of the friends of Count von Arnim throughout the Empire, they can not communicate with him. It is reported, says the dispatch, that these events are connected with a forthcoming book, the early sheets of which are already in circulation in ultramontane circles in Munich and Vienna. It is now said that the missing documents number one hundred.

The Missing Documents.

PARIS, October 8.—The *Journal De Paris* says that Count von Arnim, when Ambassador at Paris, hastened the downfall of President Thiers, and urged Germany to recognize the Government of MacMahon immediately. Prince Bismarck disapproved of this course of Von Arnim, and wrote to the latter, explaining the reason why he preferred the policy of Thiers to that of MacMahon. The *Journal* says these are the letters of Bismarck which were missing.

An Italian View of the Case.

ROME, October 8.—The *Voce Delle Verita* says, in relation to Count von Arnim's arrest, that there is reason to believe that the missing documents relate to the establishment of a new Government in France, and to German interference in Spanish affairs.

The Schleswig Question.

BERLIN, October 8.—The truth of the report that the Danish Minister had delivered a note to the German Government is denied. He simply presented complaints made by parties who had been expelled from Schleswig.

The War Budget.

The Spener *Gazette* says that the budget of the Minister of War for 1875 will call for 110,000,000 thalers.

SOUTH AMERICA.

The Revolution in the Argentine Confederation.

RIO JANEIRO, October 8.—Advices from Buenos Ayres report that Senor Anelaneda intends publishing a manifesto relinquishing the Presidency, and that Senor Quintani will probably be appointed Provisional President pending a new election.

The Government Troops Fortifying.

The Government troops are fortifying all strategetical points. The insurgents are assembled under Cannelas and Gen. Mitre at Colonia, in Uruguay, opposite Buenos Ayres. It is asserted that Gen. Mitre will take chief command.

The insurgents have captured the island of San Martin Garcia. Ten million dollars have been withdrawn from the Argentine Bank.

SPAIN.

France Not Watching Its Frontier.

MADRID, October 8.—The Spanish Government has renewed its complaints to France in relation to the lack of vigilance by French officials on the frontier.

Why Gen. Dorregaray Quitted Don Carlos' Service.

MADRID, October 8.—The *Iberia* newspaper says Gen. Dorregaray retired from his command in the service of Don Carlos because the latter refused to act upon Dorregaray's advice to dismiss some of his present friends and recall Gen. Cabrera.

Government Soldiers Disbanded.

The Spanish Government disbanded 10,000 soldiers whose terms of service expired.

RUSSIA.

The Schleswig-Holstein Question.

ST. PETERSBURG, October 8.—The *Journal De St. Petersburg*, semi-official, fully approves of the German view of the Schleswig-Holstein question.

FRANCE.

Municipal Elections.

PARIS, October 8.—The municipal elections will be held throughout France previous to the meeting of the Assembly, but the date is as yet unfixed.

ITALY.

How Brigands Live.

Monsr. Tesdale has been released by the brigands who had captured him upon the payment of a ransom of $10,000.

WEST INDIES.

Reinforcements for Cuba.

HAVANA, October 8.—387 soldiers arrived here yesterday from Spain.

The Crops in Ohio.

COLUMBUS, O., October 8.—Gentlemen in agriculture who have been traveling in Central, Western, Southwestern and Northern Ohio make a much more favorable report on the crops than have been sent out by the Agricultural Department. The drought still continues to some extent. The wheat and rye are already well up, and they are looking well. In Union, Marion and Delaware counties and eastward toward the river there is very little corn, but in the other sections mentioned, the prospect is one of abundance. The average is greater than last year, and though the per centage of bushels is less to the acre, the corn is very solid, and will weigh well. The dry weather has matured the crop, and the fodder has been entirely secured. The improved corn returns and the high prices of hogs are resulting in increased feeding, thus promising a greater number of pounds of pork than had been calculated on.

A Grave Robbed—39 Medical Students Arrested.

BUFFALO, N. Y., October 8.—The grave of Mrs. Richard J. Carey, at Holy Cross Cemetery, was robbed on Tuesday night. The casket, outside coffin and shroud were left lying on the ground. Officers to-day visited the medical college with a search warrant, and found the body, with four others. The students were surprised while at work dissecting them. Thirty-nine students were arrested and taken in a procession to the Police Court. Justice Nash released them on parole, to appear when wanted. There is much excitement over the affair.

Fire Engineers' Convention.

ST. LOUIS, October 8.—In the Fire Engineers' Convention to-day resolutions were adopted approving the ordinance adopted in St. Louis requiring all builders to construct chimneys of earthenware or other fire-proof material for lining. A resolution was adopted requesting fire insurance companies not to take risks amounting to more than two-thirds of the value of the property insured as a means toward preventing fires and loss of life.

Phelps, the New York State Treasury Embezzler, Convicted.

ALBANY, October 8.—The trial of Phelps, treasury official, indicted for embezzlement, was concluded to-day, and the jury, after fifteen minutes' deliberation, rendered a verdict of guilty. Phelps was remanded to jail, sentence being postponed.

NEW YORK.

A Counterfeiter and His Implements Captured.

Destructive Fire—One Man Killed.

NEW YORK, October 8, 1874.

Arrest of a Counterfeiter.

Pinkerton's detectives last night arrested in Brooklyn John W. Canter, an Englishman, about fifty-five years of age, on a requisition from Gov. Hartranft. He is accused of being one of a gang of counterfeiters operating in Philadelphia in altering bonds from one to ten thousand dollars in order to start a bogus insurance company. When the alteration was completed the bonds were taken to Harrisburg, deposited with the Controller for examination, and application made for a charter. Upon overhauling the securities the State Examiner discovered the fraud. It is said that Canter has been engaged in many swindling schemes, has often been arrested, and has served a term in the State Prison for forgery. Under the bed in his room were found several forged bonds, a small printing press, bond paper, dies, ink, plates and other counterfeiters' implements, which are now at the central office. Several of the dies contained the names of officials of prominent railroad companies. The names of companies whose bonds were forged could not be ascertained, but it is certain that the Union Pacific, Central Pacific and Reading & Philadelphia Railroad Companies, and the Western Union Telegraph Company are among them.

Destructive Fire—One Man Killed.

This afternoon a fire broke out in the three-story brick building including Nos. 516 to 530 West Twenty-fifth street, occupied by the Gutta Percha and Rubber Manufacturing Company, and spread with such rapidity that a large number of men and boys employed in the building were unable to escape by the stairways, and had to jump for their lives from the second story windows. Among them was John Brennan, whose clothes took fire, and he was so terribly burned that his life is despaired of. The walls of the manufactory, which were of poor construction, fell soon after the fire commenced, crushing in the roof of a two-story brick tenement in the rear of the factory. Patrick Galligan, who occupied the upper floor, was crushed to death. The loss of the Gutta Percha and Rubber Manufacturing Company is estimated at $150,000; insured for $100,000.

A Libel Suit

has been instituted in the Court of Common Pleas by Cyrus Williams against the New York *Nation* to recover damages for an article which appeared in that paper charging him with "salting" the Little Emma Mine, by which parties were deceived into purchasing stock. The case came up before Judge Robinson to-day on a motion to dismiss the complaint on the ground that it nowhere avers that "salting" is anything more than a legitimate mining transaction, or that the plaintiff's character could be injured by such a charge. The decision was reserved.

Protestant Episcopal Convention.

The General Convention of the Protestant Episcopal Church resumed its session this morning.

A memorial was received from the Diocese of Wisconsin, asking that the Convention take steps to secure an English version of the Nicene creed which would correspond as nearly as possible to the original text.

The consideration of rules to govern the Convention during its session were taken up, and discussed until the hour of adjournment.

LOUISIANA.

Address by Colored Men.

Their Political Action Foreshadowed.

NEW ORLEANS, October 8.—A committee of representative colored men have issued an address to the people of Louisiana foreshadowing their political action. They say they are the same well-disposed people as ever, cherishing no animosities, but a desire of peace and good will toward all men, and exerting their efforts and influence to a union of the two races, in which the interest of the whites would be respected and the rights of the blacks preserved; state that the nature and genius of our institutions have committed the political complexion of this State to our choice of voters, are undeterred, and frauds are not practiced. They are Republicans in politics, both from instinct and conviction. They remark: "While we have so much to encourage us in the attitude of the national administration, and are sustaining the State Government, we cannot be insensible to the fact that the Republican party in the State, since the reconstruction, has been manipulated and controlled by men as much bleached in complexion and politics as the most rampant White Leaguer in Louisiana. The power of patronage of the State Government, and some of the Federal offices in the city, are being dispensed so as to exclude our wealth and intelligence from political prominence. So humiliating has become our experience under the administrations which have been in augurated by our suffrages that we occasionally doubt the Republicanism of some of our leaders. Official influences have been unkindly exerted to defeat and suppress representative colored men, while in some instances illiterate and unworthy persons of color have been maneuvered into official positions as the best specimen of our people. No State can boast more wealthy and intelligent and refined colored men than Louisiana, and yet it is hardly possible to conceive of less official respect and consideration to character and ability than it is our misfortune to receive from the powers that be. We constitute the body of Republicans, but our integrity and capacity are ignored in the councils of that party, while our manhood and citizenship are not unfrequently humiliated in our intercourse with those whom we have exalted to power. There is a species of mystery so far as we are concerned about the plans of the campaign and the policy of the State administration which denies to every colored man in this Commonwealth, not even the Lieutenant Governor, the Secretary of State, the Superintendent of Public Education, and the State Teasurer, all participating and knowledge of the confidential workings of the party and Government." They acknowledge gratitude to President Grant for the recognition and support of the Kellogg Government, and declare that revolution cannot be tolerated.

SOUTH CAROLINA.

Conservative State Convention.

COLUMBUS, S. C., October 8.—The Conservative State Convention met to-day, every county in the State except three being represented. The following resolutions were passed unanimously:

Resolved, That, in the opinion of this Convention, the Conservative citizens will best promote the interests and welfare of the State by giving their support to the candidate for Governor and Lieutenant Governor of the Independent Republican party.

Resolved, That we adopt as the platform of the Conservative party of South Carolina, honesty and economy in the administration of the State Government.

The delegates present assert that the Independent Republicans are gaining ground everywhere, and the general belief is that with the full and active co-operation of the Conservatives they will elect their candidates for Governor and Lieutenant Governor, and elect General Kershaw to Congress.

Railway Collision—A Mistake in the Signal the Cause.

PHILADELPHIA, October 8.—A collision occurred this morning at the intersection of the Corning and North Pennsylvania railroads between a coal train on the former and a way train on the latter road. The engine of the coal train struck the passenger train between the baggage and first passenger cars, and two passenger cars were thrown into a ditch. Fortunately no lives were lost, although several persons had limbs broken and were otherwise injured. A mistake in the signals was the cause of the accident.

A Mormon Grand Juror Indicted.

SALT LAKE, October 8.—The Grand Jury to-day indicted one of their own number, Thomas E. Ricks, for lascivious cohabitation. He is charged with having five wives, three of whom are married to him since 1862. His own daughter was one of the principal witnesses.

STATE BREVITIES.

TYPHOID FEVER prevails in Cambria county.

THEY had a little snow and a little hail at Clearfield the other day.

A CHURCH in Lock Haven was recently robbed of its communion service.

BLAIR and Cameron counties propose to set up a team of riflemen, with a view of challenging the State.

SCRANTON boys banter each other to see who can run across the railroad track longest in the front of an approaching train.

THE cattle disease, which is proving so fatal in neighboring counties, is now said to be *pleura pneumonia*. In most cases the lungs are congested.

THE wife of Mr. Joseph Phillips, East Nantmeal, Chester county, is mother of 13 children; the last one, recently born, weighed at the time of its birth 17 pounds.

COL. SEARIGHT, in a letter from Denver, Colorado, says: "As the result of considerable amount of travel and observation, the counties of Fayette, Greene, Westmoreland and Allegheny have better claims to be considered the garden spot of the world than any other section of the country I have ever seen."

PERSONAL.

***Mr. David Hastings, the efficient Clerk of Markets in Allegheno, was complimented last evening by a gift of a very elaborate and valuable gold-headed cane, from his market friends.

***Miss Maggie Hardy, who goes as a missionary to India, was made the recipient of a gold ring, an elegant writing desk, and other testimonials of esteem from the Directors of the Bellefield school, in which she had been a teacher, and other friends. The presentations took place on Wednesday, at a banquet given in her honor.

McGraw, Fairview; G. E. Campbell, Manongahela City; J. N. Garrison, Brookville, and James Fowler, Parker City, were among the guests registered at the St. Clair Hotel, yesterday.

***There is a striking contrast between Barnum's first and second marriage. When he was "Taylor Barnum," helping his widowed mother, who kept tavern in Danbury, he courted Charity Hallett, "a sewing girl." Charity Hallett yielded to the youth's ardent affection, and became his bride. They commenced housekeeping in the second story of a small building, on the first floor of which the bridegroom kept an oyster saloon. Let this be compared with the Barnum of to-day, with a property of three millions, and with a palace at Bridgeport surrounded by a park, the establishment being unequalled in New England.

AMUSEMENTS.

PITTSBURGH OPERA HOUSE.—A large audience last night witnessed the presentation of that sterling play "Leah, the Forsaken." Its high literary merit, its startling situations, its healthy tone, &c., all commend it to the good opinions of those who love the drama. It was well put upon the stage, and made an unusually fine impression for a play that is not familiar to Pittsburghers. Miss Randolph in the character of "Leah" had full scope for the display of that wonderful ability which she undoubtedly possesses in a very eminent degree, and she did not fail to make the best use of the opportunity. As a polished, finished actress, she occupies a prominent position among those who grace the front rank of the dramatic profession, and an overflowing house every night would be nothing more than a fitting recognition of her great ability. She was well supported last night by the members of the stock company. This evening, which, by the way, is her benefit night, she appears as *Galatea* in "Galatea the Statue," with Mr. J. H. Fitzpatrick as *Pygmalion*. Miss Randolph made a "ten strike" in this play at Wallack's in New York. It is one of the very best in her repertoire and is pronounced first class in every respect.

On Monday night John McCullough, a tragedian well and favorably known in Pittsburgh, appears at the Opera House. It is more than a year since he was here last, and judging from his popularity then, and the immense crowds that thronged to witness his representations, it is only fair to presume and we hope that he will meet with equal success next week. He recently concluded an engagement of nine weeks in New York city, and is now playing in Cleveland. In both places he met with what follows him everywhere,—unbounded success. "Virginius" has been chosen as the tragedy for the opening night, to be followed on Tuesday by "Richard" and the "Gladiator on Wednesday evening. We bespeak for him the success that his merits deserve.

THE HIPPODROME—CLOSING PERFORMANCES.

Barnum's great Roman Hippodrome, which has justly been termed "the event of 1874," will soon be among the things that were in our midst, there being but four more performances; and if there are any of our people who have not yet seen this colossal of shows, they will please bear the fact in mind that two exhibitions to-day and two to-morrow are all that can be given here. As soon as the Saturday evening entertainment has been concluded, the gigantic tent will be dismantled, the performers will take off their ring costumes, and will hurry off to Cincinnati where the Hippodrome is announced to appear next week; the horses will be placed in box cars, the chariots, the triumphal cars and the cumbersome appurtenances of the great Hippodrome will all be packed into the smallest possible space, and when the "Congress of Nations" again triumphantly moves around the arena in glittering splendor, it will be in Porkopolis, several hundred miles away. The probability is that this will be the last time that Barnum will ever visit the West with this or any other show, as he is getting well up in years, and those who neglect the present great opportunity may regret it the balance of their lives. To have it to say that you have witnessed the grandeur and magnificence of the opening pageant entitled the Congress of Nations, the wonderful Japanese ladder balancing acts and tub balancing of Satsuma and little "All Right," the race by five young ladies mounted on English thoroughbreds, the carriage full of monkeys dressed up in the fashions of the day and drawn by ponies, the Roman standing race in which the riders bestride the backs of the horses, the representation of life on the plains, including the preparation of an Indian camp, a buffalo hunt, capture of a white prisoner and his torture by lashing him upon the back of a wild horse, a snowshoe race, an Indian hurdle race and a race after an Indian beauty by her suitors, the one capturing her claiming her for his bride, and a fight between some Texas rangers and the Indians; a monkey race on ponies, a two horse and a four horse chariot race, two and four horses abreast, race between American and English jockeys, an elephant and camel race, hurdle race by four ladies, Donnybrook Fair, exiting trapeze acts, &c., &c.,—in Barnum's Hippodrome, is thought to be about enough amusement to satisfy any person an ordinary lifetime.

In the Roman standing race, last night Mr. North fell from the horse he was riding, without, however, being seriously injured. The remarkable feature of the affair was that his horse continued the race and came in ahead of all the others. To-night the race between Mr. Stroup, of this city, and one of Barnum's jockeys, will commence, to be continued Saturday afternoon and evening, with the concluding performance in the evening—the winner to be presented with a valuable gold headed whip.

Winter is Coming—A Seasonable Hint.

Thoughtful and prudent men will ever look ahead and make provision beforehand for coming necessities. Every gentleman who would make a genteel appearance and feel comfortable during the season of frost and snow, soon to come upon us all, will at once, in good time, before the chill November and December blasts bring rheums and pneumonia to their human victims, provide himself with suitable defences against such evils. Now, the advice we would give to all is, go to the well-known and justly celebrated merchant tailoring establishment of Henry G. Hale, corner of Penn and Sixth streets, and replenish your winter wardrobe. Mr. Hale has made ample provision, not only for his already numerous, but also for the large accession of new customers, which his elegant establishment and large stock of the choicest fabrics cannot fail to attract. We were tempted yesterday in looking over his goods to order a Christmas suit, and we noticed on this occasion that Mr. Hale had just paid the duties and released from bond an extensive invoice of English Overcoatings, Kamskatka, Elysian and fine Worsted Coatings, Vestings and Pantaloon stuffs in the newest styles and of superior texture. We have not elsewhere seen a stock so well selected or in such good taste. The most fastidious customer can surely please himself here; and then it is worth while to speak of the characteristic enterprise of Mr. Hale in securing from New York one of its most celebrated cutters in the person of Mr. M. C. Byrnes, who is a genius without a rival in his particular art, giving equal satisfaction to the fashionable young gentlemen, the professional man or the aged patriarch. We have given you a hint, good reader. Now go to Hale's and profit by it.

That Base Ball Fatality.

It will be remembered by our readers that during a base ball game, which was played in Allegheny about two weeks ago, a son of Patrick Sullivan was fatally injured by a bat, which slipped from the hands of John Sherry, while in the act of striking. The boy has since died, and yesterday suit was brought by the father, in the District Court, for damages, against said Sherry, on account of alleged carelessness in causing the accident.

THE TAXPAYER'S COUNCIL.

Yesterday's Session of the Union—The City Hall Commission Accounts—Responses of Legislative Candidates to the Conundrums Propounded.

A regular weekly meeting of the Taxpayers Union was held yesterday afternoon at the accustomed place in the Bank of Commerce building, on the corner of Sixth avenue and Wood Street, Major Wm. Frew in the chair. The minutes of the two previous meetings were read and approved. Mr. Jno. W. Riddell, from the Committee on the legality of the Mayor's election, reported progress, and also stated the result of the correspondence between himself and the Mayor, which was published in the GAZETTE a few days ago. The Mayor will issue no proclamation for a new Mayor's election until the legality of the one held in February last is passed upon.

Mr. Riddell also referred to the fact that a committee from the Union had been appointed by Common Council to audit the accounts of the City Hall Commission, but that by the action of the City Solicitor, who had applied to the Court for the appointment of auditors, the matter had been taken entirely out of the hands of the Tax-payers. He also said that he did not wish to question the honesty and ability of the gentlemen appointed by the Court, but asserted that they would only audit the accounts as lawyers, as mathematicians. They would find that so much money had been received, so much paid out, examine the vouchers and submit a report thereon. No examination would be made into the extravagance alleged against the Commission, which the speaker considered as bad as fraud. That there had been great extravagance the gentleman did not doubt, because buildings equally as good as City Hall have been built in other cities at half the cost. He was inclined to think the sum of $20,000 paid to the architect was altogether too much. Mr. Riddell favored the ignoring of the Court auditors, until the Taxpayers could get a chance at the accounts themselves.

The matter was further discussed by Messrs. Ward, Mellon and Powers, who differed with Mr. Riddell as to the Court auditors. Mr. Powers was in favor of appointing a committee to appear before the auditors with clear and distinct attacks on the accounts of the City Hall Commission, or on such parts of them as can be shown to be supported by false vouchers.

The matter was finally referred back to the Committee which is now acting.

Mr. Ward, in a spirit of sarcasm, moved that the Committee be discharged and that the Taxpayers Union rely on the report of the auditors appointed by the Court for a faithful examination of the accounts. Lost, there being not an affirmative vote.

Mr. O'Keefe moved that the City Solicitor be requested to ask the Court to appoint three additional auditors and that they be the members of this Union appointed by Common Council to investigate the accounts of the Commission. Lost.

Mr. Powers, from the committee appointed to interrogate candidates for the Legislature, read responses from the following candidates on both the Republican and Democratic tickets. Messrs. Joseph Hays, J. M. Carson, S. J. Wainwright, John C. Newmeyer, J. R. Thornton, Peter Zern, James Onslow, S. F. Patterson, John Routh, and Miles Humphreys. They all stated that they are thoroughly in accord with the objects of the Taxpayers' Union, are opposed to and will do all in their power to reduce burdensome taxation, are opposed to allowing perquisites to public officers, and are not pledged to vote for any man for United States Senator. Mr. Humphreys said that if it could be shown that the perquisites attached to the Mayor's office are not in accordance with the provisions of the new Constitution he would vote to abolish them.

Captain Ward moved that the report be received and the committee discharged.

It was opposed by Mr. Riddell, on the ground that some of the candidates on the Temperance ticket had not been interrogated, and he favored dealing out equal and exact justice to all. Some of the candidates on the Republican and Democratic tickets have sent in no answers yet either.

Mr. Finley, who is a Temperance candidate, and Secretary of the Union, left the meeting in disgust, at the prospect of not being afforded an opportunity to reply to the questions.

Captain Ward's motion was finally put and lost, when he called up his resolution providing for the calling of a convention to nominate a Taxpayer's Legislative ticket, and moved that it be adopted.

The motion was lost and the Union adjourned.

GOLD closed in New York yesterday at 110.

TWO newspaper pages of advertisements of sales for non-payment of taxes is not a very hopeful showing for the City of Washington. Those extensive tax sales look bad for any city.

A PRIVATE note informs us that Dimmick has not been nominated for President Judge in Wayne county, F. M. Crane being the Democratic nominee. He is, of course, a much better man than Dimmick.

THE first sweep of clerks from the Treasury Department, at Washington, on account of the relative order, seems to have been pretty thorough. A careful search of all the force discovers only fifty that need to be removed.

THE Harrisburg *Telegraph*, on Wednesday entered upon its nineteenth year, and indulged, on the occasion, a very pleasant retrospect of its history thus far. The *Telegraph* has improved very greatly of late, in every particular, and we value it as one of our most useful exchanges.

THE Ohio election will take place on Tuesday next, and, to some extent, will take the place of Pennsylvania, as being the preliminary battle ground of the canvass. There are, however, this year, many complex elements involved in Ohio politics. Chiefly, the temperance issue is up, and it is a disturbing force that will destroy the usual equilibrium of the parties; still, we think the Republicans are destined to succeed.

THE death of Rev. Dr. Eddy, one of the Corresponding Secretaries of the Missionary Society of the M. E. Church, is reported. He devoted himself with such zeal to the duties of his position, that typhoid fever ensued, and a fatal termination is reported. Dr. Eddy was a man of great spirit, intense ambition, and wonderful energy. His death will be a great loss to his church.

CHARLES O'CONOR, whose standing as a Democrat will not be questioned, has written a letter to Abraham L. Earle, Secretary of the International Free Trade Alliance, in which he distinctly urges absolute free trade, the abolition of Custom Houses, and the raising of revenue by direct taxation. The Government at the present raises, by means of the tariff, about $160,000,000 of revenue yearly. Were the tariff abolished, according to this Democratic idea, this revenue must be raised by direct taxation. All such taxation is usually and necessarily, a *per capita* one,—that is, a man worth nothing would be compelled to pay just as much as the man who is worth a half million of money. That the tariff is an indirect tax on the poor we deny, and will take occasion in another issue to show that it operates to the advantage of the poor.

A SINGULAR event recently transpired in New Orleans. A millionaire miser allowed his property to be sold, at an amazing sacrifice for taxes. Francis Lacroix is one of the old French colored residents of New Orleans, and from a quarter to a half century ago, was the fashionable tailor of the city. He made money very rapidly, spent sparingly, and invested his surplus in real estate, which steadily rose in value. Many years ago he was a millionaire. One of his peculiarities was to resist the payment of taxes. Three years ago his tax list reached $30,000, and he gave his son the money to pay, but the faithless child appropriated the money, and was driven away with his father's curse. Since then he has been stupid,—stolid. His tax debt having reached $75,000, the authorities a short time since proceeded to sell him out. He attended the sales, and only once did he arouse from his stolidity. A favorite property was sold, and then by a quick motion, he dashed a tear from his eye, and was as calm as ever. It is thought he chooses to deliberately sacrifice his property to spite his son.

A LARGE and very enthusiastic Republican meeting was held on Wednesday evening at Huntingdon. Notwithstanding the rain, the Court House was filled with an attentive and earnest audience, that listened attentively to the addresses delivered. The old split among the Republicans in that locality is very nearly healed. Those generally who drifted off into the Guss faction have gone into the Democratic party, except such of them as were sincere Republicans but were misled; they have come back into the Republican ranks. There is more confidence and vigor among the Republicans there than has been manifested for many years. The *Globe*, which is edited by Guss, of the Cassville Orphans' School, has accepted all of the State Republican ticket, except Colonel Beath, who, it alleges, defamed the orphan girls. This defamation, we suppose, consisted in bringing on the investigation which led to the closing of the Cassville School. Col. Beath was present at the meeting above referred to, and explained his course clearly and satisfactorily. Hon. John Scott, who is a resident of Huntingdon, was present, and delivered a very clear and effective address on the currency, tax and tariff issues, showing the contrast in the attitude of the two leading parties of the country on these issues. Senator Scott is very popular among the citizens of Huntingdon, a fact which speaks well of his home reputation.

WE HAVE long entertained the belief that the root cause of the Southern troubles may be found in the education of the planter class at the South to believe that they were a superior race, empowered by some divine law to govern and dominate the blacks and the "low down" whites. Trained from infancy in this idea, they could not, of course, banish it when the war was over, and hence they have felt the presence among them of the negro as a freeman with the ballot in his hand was an insult and a degradation to them. And when by force of numbers, the negroes and Republican whites dominated the politics, and controlled the Government, the insult was all the more present. They have not learned that the new era required every man to earn his own bread, but still entertain the idea that they should control affairs, and hence the Kuklux and White Leagues. But we are glad to think that President Grant's firmness has induced some of them to pause and think. Says the New Orleans *Times*, "The foolish prejudice which has hitherto existed in the South against mechanical and common manual labor has proved a sad drawback on our general prosperity. It is high time that a new departure was taken in this matter. The old and peculiar institution, which did so much injury to the South by degrading labor, has been swept away, and with it should go all its demoralizing accessories. We cannot all fill high professional positions, nor can we all find profitable employment as politicians. Coming down to matters of fact, more of us must earn by the sweat of our brows. Our section will be far better off when it learns to appreciate the value of the working mechanic, and when it esteems that the entry of the youth of the land upon this course of life is in the highest degree worthy and honorable." This generally conceded and acted on, and there is hope for the South.

THE THIRD TERM.

We really begin to hope that some one, properly authorized to speak, will inform the New York *Tribune* whether the President will, or will not, allow his name to stand for a third term. True, one of his Cabinet has declared he will not; the good sense of the President is a guarantee that he will not; and his preparations for his family all tend to show that he entertains no Third Term aspirations. He has been specially observant of the drift of public sentiment since his entrance upon public life, and has been careful to conform to it; he declared among his first Presidential utterances, that he would have no will as against the will of the people,—all this, and yet the New York journals cannot make themselves happy over the Third Term idea. The pith of the whole matter seems to be a rivalry between the *Herald* and *Tribune*, as to which shall be able to force an utterance from the President on the subject. The *Herald* started in with Cesarism, and after running the gamut of that dangerous topic, closed with piteous appeals to the President to say something, and relieve the terrible suspense of the people. In due time it learned that "Mr. Grant is a very stubborn man." The *Tribune*, of course, assumed a more statesmanlike *role*. The *Tribune* is nothing, if it is not profound, and learned. It gave extracts from history and utterances of Washington, Jefferson, and others, to show that they did not seek a Third Term,—an item of information which, to say the least, was neither novel nor new. Then followed a doleful account of the evils that would befal us, were the Third Term idea to be admitted, all of which were fine specimens of gloomy forebodings. At last it began to wonder why the President did not deny that he was a Third Termist; it could see many reasons to think he was one. Some one had talked about it in his presence, and the President said nothing! Others who had talked with the President favored it,—*ergo* the President favored it. And then he did not deny it,—could better proof be needed? Said the old lady, "I charged him with stealing my umbrella to his teeth, I did, and he didn't deny it, he didn't." But it turned out that no denial was made simply because the accused did not think his accuser worth the breath, and regarded her rantings as an impertinence.

The *Tribune* now is in full howl for the President to affirm or deny. It has reached precisely the position of the *Herald*. Yet the President holds to his quiet way and says nothing. It is time the hint were taken that he will speak when it pleases him, and will not speak merely to please *Tribune*, *Herald* or any other paper. But it is sheer nonsense to attempt to create the idea that Third Termism is to be a feature of the existing canvass. The truth is, the people are so well satisfied there will be no serious attempt to develop Third Termism that they care nothing about it. Ours is a practical people, and cannot be readily excited by mere moonshine. They will not have the Third Term, and we doubt if any one gets to be President without them. So we advise the *Tribune* to subside.

RESUMPTION.

The wearisome and useless question of enforced specie resumption has started up afresh, and Charles Nordhoff publishes a plan, the pith of which is that our greenback circulation shall be retired, one quarter of the entire issue yearly, and national bank notes substituted, thus keeping the same amount of currency in circulation all the while, but changing its character. The national bank notes thus issued are to have a specific date fixed at which they will be redeemed in gold. Then as many of these notes as may be called for to be issued, on the basis of a deposit of Government bonds—in other words, free banking. To the plan, in itself considered, there are no serious objections, and the tendency of Congressional legislation is toward free banking. The only criticism we have to make is, that we will probably reach the same result without the fuss and change proposed, and the entire tendency of affairs is in that direction.

During the past year, the balance of trade with Europe was in our favor, so that we were compelled to export less than $40,000,000 of gold. The outlook is that it will be more in our favor the present year. With this as a fact, we ought to have an accumulation of gold, at the rate of from $20,000,000 to $40,000,000 a year,—our mines yielding an average of about $60,000,000 a year. It ought to be a clear proposition that in order to resume, we must have the gold with which to resume. The question that is at the root of specie resumption, therefore, is, where will the gold come from? To say it will come from Europe when we want it, is to utter an absurdity, unless we can offer Europe an equivalent for the gold. If the balance of trade is against us,—that is, if we buy more than we sell, what will we offer to get the gold? Certainly England will not give it to us; nor will she loan it, except upon good security. We cannot get something for nothing. Suppose, then, we borrow, as was proposed by Senator Frelinghuysen? We must pay interest on the loan, in gold. In brief, until we can accumulate, under the natural operations of trade, the gold on which to resume, the attempt to do so by Congressional legislation will be a farce, just as Secretary Richardson's silver resumption was. And it really looks as though we would reach it in five years, but it must be done, chiefly, through the operation of the laws of trade.

That Congressional legislation must be superadded, we do not doubt; but the important thing is, to have this legislation at the right time, and of the right kind. When the condition of the country will admit of it, a law of Congress, that will fix a time when it shall be done, and giving sufficient notice to prevent disorder, will be just and proper. But there is no need of changing from greenbacks to National Bank notes. If the Government is a good endorser, its own notes are as safe as those it endorses. The security it holds for the endorsement of the National Bank notes are its own bonds—and if these are good, so are greenbacks. If the Government is not sound, nothing is. So a mere exchange of one kind of currency for another is a simple absurdity. As part of a process looking to resumption it is worthless. What we want is, first, to get the country in a condition in which it can keep its gold. So long as it is a mere sieve through which gold runs, as would water through a rag, we cannot resume. This, however, as we have said, is being rectified. Thanks to protection, we buy less from Europe than we sell to her. This, however, has not been continued long enough to accumulate gold, but we soon will gather up a supply, and then, resumption is feasible and easy.

POLITICAL NOTES.

THE Democracy of Lawrence county have nominated R. W. Clendenin for Congress and W. S. Black for Assembly.

THE Democratic Convention of Lebanon county nominated Wm. M. Breslin, of the Lebanon *Advertiser*, for Congress, and Jacob L. Rise, of Lebanon, and Dr. Gibson Bowers, of Myerstown, for Assembly.

THE workingmen of Lynn, Mass., have formed a club and will support Gen. Banks for Congress. The contest in the district is virtually narrowed down to Mr. Gooch, the present incumbent, and Gen. Banks.

ADVICES received at Washington from Virginia says that ex-Governor Henry A. Wise contemplates running as an Independent candidate for Congress in the Richmond, Va., district, in order, if possible, to defeat the Democratic candidates.

THIRTY-SIX ballots for Congress were taken at the Summit, Cambria county, on Tuesday, resulting in no choice. On the last ballot the vote stood: Blair, 6; Barker, 3; Koontz, 3. An adjournment was effected until nine o'clock Wednesday morning.

IN Kansas cards are circulated with Governor Osborne's photograph on one side and Cussey's on the other, with the inscription, "Look on this picture, and then on that." This is a happy idea, and will prove a potent campaign document for the Republicans.

FRANK O'MOREY, Congressman from the Fifth Louisiana District, states that intimidation, organized and thorough, prevails in the parish of Union to such an extent that not more than 300 of the colored voters will register. He states, further, that a similar state of things exists in Claybourn, Lincoln, Jackson, and Franklin parishes.

CHARLES FRANCIS ADAMS has been mentioned in connection with the next Democratic nomination for the Presidency. Mr. Adams is a gentleman, a scholar, and a statesman, but he perches so high that one has to go a long way to get at him. A New Hampshire dairyman, who had been complaining of the havoc the hot weather made with his butter was at once advised to hire Mr. Adams as a refrigerator.—*Washington Chronicle.*

JAMES L. EVANS, of Noblesville, the Republican candidate for Congress from the XIth Indiana District, from all accounts must be a man after the farmer's own heart. Here is what the Kokomo *Tribune* says of him: "Five hundred Democrats in Hamilton county will vote for him because he is a good fellow. He is a miller. He manufactures into flour about 500 bushels of wheat every day in the week, except Sunday. He ships this flour direct to manufacturing towns in New England, and sells it direct through a local agent, thus avoiding middlemen. He is so well off that there is no occasion for his stealing, and he wouldn't do it any how. He is well balanced. He has no hobbies. He don't use tobacco or whisky. He don't even drink a glass of beer. He works hard six days of each week. He has freckles on the backs of his hands, and horns on the other side. If the people want a workingman in office, Evans ought to be their choice."

LIEUTENANT and Mrs. Fitch, *nee* Sherman, have left New York for St. Louis. They will stop for a few days at Mansfield, Ohio.

GOVERNOR HARTRANFT, in opening the Franklin Institute exhibition in Philadelphia, very happily spoke of it as the skirmish line of the great Centennial.

IT is stated that General Leggett, Commissioner of Patents, whose resignation will take effect on the 1st of November, will establish himself as a patent lawyer, in Cleveland, Ohio.

THE Rev. E. E. Hall, of Boston, had the pleasure of presenting to his congregation on Sunday a valuable gift. It was a silver paton, one of the oldest pieces of the communion service of the Unitarian Church of Kalsovar, Transylvania, which was the giver.

MISS IDA HONORE, who is to marry Colonel Fred Grant in Chicago shortly, has appointed as her bridesmaids Miss Hall, her cousin, Miss Lucia Houston, Miss Irene Rucker, and Miss Dunlevy. GOVERNOR HARTRANFT has appointed Dr. Philip Leidy, of Philadelphia, Port Physician in that city, *vice* Hoffman, deceased. Dr. Leidy was strongly recommended for this position at the time of the late Dr. Hoffman's appointment. The doctor served during the war as surgeon of the 106th Regiment P. V., and subsequently as surgeon of the 119th Regiment, until the close of the war.

THURSDAY evening Fred Vokes, of the Vokes family, received the entire three degrees of the Pythian Knighthood at Albany. The conferring of three degrees on a person at one time is an unprecedented event in the history of this rapidly increasing and influential order, and was done in view of Mr. Vokes' intention to establish lodges in England, for which purpose he will soon go to that country.

THE Emperor of Germany has conferred the Order of the Crown of Prussia, accompanied by a decoration, upon Col. M. Richards Muckle, of the Philadelphia *Ledger*, for meritorious services in the interest of Germany in connection with the transmission of funds for the relief of the widows and orphans caused by the Franco-German war and the restoration of the University Library at Strasburg, destroyed during the seige.

Two chairs are now vacant—those of M. Guizot and M. Jules Janin.

MR. BEECHER writes to Mr. James Redpath, of Boston, that he cannot meet his lecture engagement this week at Salem and Melrose, Mass., and at Brattleboro and Brandon in Vermont. He says: "The suits at law fly back and forth with such number and alacrity that my counsel will not let me be out of town this week. Of course, such things are imperative and not to be gainsaid. I shall go on with the engagements for the week following in regular order. I cannot now tell when I can render the lapsed engagements, but will in due time."

EX-MAYOR MEDILL, says in one of his letters to the Chicago *Tribune* from Germany, that the Germans never treat one another, but each man pays for what he drinks. It is a very excellent custom, for then a man is not tempted to drink more than he needs. It is a pity that when our German friends come over here they could not stick to their national habits in this respect.

MRS. GIACCOMMETTI is a London female with a mission, which is to resist the unlawful demands of exorbitant cabmen. She takes a ride in a cab, and then, if the driver charges her one penny more than the legal fare, she summonses him, and he is punished according to the statute. If Mrs. Prodgers could be induced to emigrate to America, she would find an abundant field for the exercise of her talents.

THE Controller of New York has made a statement of the debt of that city, which shows its aggregate on September 30th to have been $153,726,092, an increase of about twenty-two and one-half millions since the beginning of the year. There are at present in the sinking fund of New York securities valued at $26,829,732; so that the debt, less the sinking fund, on September 30th, was $126,896,360.

THE recent loss of life in the administration of chloroform at Boston is a fresh warning against its use for dental operations. There are surgical cases where its use is deemed necessary by experienced physicians, but in such trifling affairs as tooth-drawing the risk is out of all proportion to the advantage. A dentist who employs it should be held responsible for its use, and if the result is fatal, should be tried for manslaughter. There is no excuse for tampering with human life when comparatively harmless anaesthetics would serve every purpose, if, indeed, any is really needed.—*N. Y. Tribune.*

THE total valuation of real and personal property in the State of New York, made by the assessors for taxation purposes, aggregates for 1874 $2,169,307,873, as compared with $2,129,625,386 for last year. Of this year's valuation 1751 millions are real estate and 418 millions personal estate, whilst 1105 millions, or more than one-half the total, is the valuation of property in New York city. These valuations, however, are not one-half the real value, for the assessors give the full value of the real estate of New York State at the enormous figure of 4168 millions, of which 1985 millions are in New York city and 426 millions in King's county.

A Russian Crœsus.

The Continental *Herald* gave an account the other day of the opening of a Russian chapel erected in the Canton of Tessin by a Baron whom the local papers call "a Russian Crœsus." It seems that this gentlemen has become so entranced by the scenery at Lugano that he has resolved on building a magnificent chateau in the neighborhood. The building will cost 5,000,000 francs, the decorations 800,000 francs, and the furniture about as much more; but this will be but a bagatelle to the owner if, as the Tessinois journals say, he has an annual income of over 15,000,000 francs. They set down his *entourage* as 30 Russian servants, 16 Russian and Swedish singers, and 60 musicians, who cost him alone 150,000 francs a year. In order to gratify further his musical tastes a celebrated prima donna is engaged occasionally for his exclusive enjoyment, and by way of keeping his orchestra in practice the members of it are obliged to play at a certain hour each day throughout the year, although in the abscence of M. le Baron there is not a single auditor. The Baron is said to have "sumptuous palaces" at Paris, Vienna and Nice; to have made his money by speculations in Russian railways; to change every two years all his *personel* and even his acquaintances, and to ignore competely his relatives.

RETURN OF A BORROWED BOOK.

And thy dear eyes have wandered o'er each page,
Following the hero's course from youth to age;
Smiling at his pleasures, weeping at his grief,
And gleaming glad surprise o'er every leaf.
O happy author! What is fame or gold,
When thou hast thus the power to hold
Lucasta's heart in an enchanted spell
For hours together? When thou knowest well
That other swains may gaze with wistful eye,
And eagerly, but vainly still, may try
To win but one soft beam, where thou'st a score,
Ah, what could human mind desire the more?
Then, book, I'll hide thee far from those dear eyes,
For when thou'rt near, let me be witty, wise,
Or sad, or gay, yet all my moods are one:
I'm but an asteroid, while thou'rt a sun.
Doomed still to be content with careless word
While thou art near, I scarcely may be heard,
Hence, then! To darkest closet that ne'er light
may see,
I'll bear thee; and remove one cause of jealousy!

Sure Preventive to the Freezing of Water Pipes and Accidents of Similar Nature to Water Closets.
We beg leave to offer to the public our
Patent Automatic Water Closet,
which is Anti-freezing and Inodorous. It is the most durable Closet in the market, for the following reasons: It will not freeze. It is strictly self-acting. It does not cause any re-acting and bursting of pipes. It is free from all obnoxious odors, and therefore will improve the sanitary condition of our cities. It has no valves to get out of repair and leak.
With our valuable improvement obnoxious cesspools in yards are dispensed with, as direct communication is made with the sewer pipe.
The public are invited to call at our salesroom, and examine this valuable improvement in operation, where its great advantages can be seen at a glance, or send for circular containing full particulars.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, October 9, 1874.

In current finances, no change is reported—the banks having plenty of money, but cautious in its use. Real estate dull, as to sales; that well located maintaining its price, and that poorly located being of uncertain value. Speculative real estate is simply dead, no inquirers, demands or purchasers. Some trading in real estate takes place from time to time, but dullness is the prevailing feature.

The oil refiners seem to be vigorously prosecuting their campaign for cheaper rates. A contract for several thousand barrels to be transported to the seaboard by the Pittsburgh, Baltimore & Washington is reported. It is also said that the Pennsylvania Railroad has shown signs of yielding, but the refiners are firm in their purpose to complete what they have undertaken before they stop.

—The United States District Court for the Eastern District of Missouri, in a recent case, followed the decision of Judge Blatchford, of New York, that persons adjudicated bankrupts prior to the passage of the amendatory act of June, 1874, could not be discharged under its provisions, but remained subject to the disabilities imposed by the law as it previously existed. Judge Treat, of the Missouri District, made this ruling, however, *pro forma*, for the purpose of allowing the question to go up to the Circuit on appeal, and the Missouri Circuit, Judge Miller rendering the opinion, has now reversed the judgment, and decided that "an involuntary bankrupt may be discharged, irrespective of the amount of his assets or of any consent of creditors, whether his case was commenced while the old law was in operation or since the amendatory law was passed." This ruling is in accord with that of Judge Lowell, in the Massachusetts District, and throws the weight of authority, as well as equity, against the contrary doctrine of Judge Blatchford.

—Dr. Linderman, in his report as Director of the Mint, says the amount of specie in this country on the 30th of June last was $167,000,000. The estimate shows a gain in specie and bullion in the last two fiscal years of $38,500,000. The amount of gold and silver coin and bullion in the world is estimated at from ten to twelve thousand millions. The present rate of production is—silver, $80,000,000, and gold, $100,000,000; the two together being an annual addition of about one and a half per cent. to the existing stock of specie. This last point is elaborated in the report.

The criminality of embezzling State moneys was differently decided in New York yesterday from what it was in the Evans case in this State. The trial of Mr. Phelps, Treasury official, indicted for embezzlement, was concluded, and the jury, after fifteen minutes deliberation, rendered a verdict of guilty. Mr. Phelps was remanded to jail, sentence being postponed.

—At the tenth annual Convention of the National Association of Wool Manufacturers, yesterday, nearly every section of the country was represented. A resolution was submitted by the Executive Committee in opposition to the proposed reciprocity treaty with Canada, it being prejudicial to the wool industry of the country, and was adopted unanimously.

—The Lake Shore and Michigan Southern Railway Company, which has just succeeded in negotiating an unsecured mortgage loan of $3,000,000 at about 90, had already a funded debt of $37,195,000, bearing an annual interest of $2,590,000.

—The hands in the machine shops, sewing machine factories, &c., in Toronto, Canada, are being discharged in consequence of dull trade.

—Half a million Government gold was awarded yesterday at 109.89.

The customs receipts were $517,000, and the Treasury disbursements $76,000. The failure of Charles Lewis was announced on the Stock Exchange to-day. COMMERCIAL.

Condition of the Markets at Home and Abroad.

PITTSBURGH DAILY MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, Oct. 8, 1874.

The general feeling in commercial circles is, if anything, improving, and while business is not as active as it usually is at this particular season of the year, our merchants and manufacturers are confident of a steady legitimate trade; and, notwithstanding orders for all kinds of good are very much curtailed, there is a very fair business in the aggregate. That the trade and the industries of the country are not in so bad a condition as many believe, is shown by the internal revenue collections during the first quarter of the fiscal year, which are considerably in excess of last year, and also by the prompt mercantile collections throughout the country. The apathy of the masses has been overcome, and it is swinging slowly into the current, presently to gain accelerating impulses. In the meantime all classes appear to have decided to get along with as little expenditure as possible, and this has its effect on the general merchandise markets.

APPLES—The arrivals are increasing somewhat, but as yet there has been no accumulation, and prices are still maintained, ranging from $1,50@2,50 per bbl, the outside figure for choice, with barrels well filled. There will be an increased demand from this time forward.

BUTTER—There is a continued steady demand, especially for the finer grades, and prices are fully sustained; quotations may be fairly given at 33@35 for prime to choice; 25@28 for medium to good, and 10@15 for common to fair. It is worthy of notice that the receipts have commenced to increase, owing to the recent advance in prices.

BEANS—There is a very limited demand just now, as there usually is at this particular time, but the supply is light, and prices remain about as last quoted, ranging from $2@2,40 ₱ bushel, the outside figure for prime navies.

CHESTNUTS—Selling at $4,50@$5 ₱ bushel.

CRANBERRIES—Good to prime Jerseys quoted at $10@12 ₱ bbl, as to quality. Sackett's, $15. The demand as yet is light.

CHEESE—There is a continued steady demand and we can report regular sales at 15½@16 for prime Ohio Factory and New York do. at 16½@17. Ohio Sweitzer, 16@18.

EGGS—There is a fair consumptive demand, and while we continue to quote at 24@25, we have reason to believe that there are more being sold at the former than the latter quotation. Dealers generally report the market slow at 25.

FLOUR—The market is quiet, and devoid of a single characteristic worthy of special notice. We continue former quotations: Spring wheats, $6,25@6,50 for Wisconsins and $7@7,25 for Minnesotas; winters; $6@6,50 for red and $7@7,50 for white. Rye Flour, $5,75.

GROCERIES—Trade continues dull, but it is hoped and expected that it will pick up again. Orders for Sugars are not coming in so freely, nor is it to be expected, in view of the fact that the fruit season is drawing to a close. The demand for Sugars, so far as regards our market, was heavier during the past three months than during any corresponding time for several years, and it may be attributed to the large crop of fruit. Coffee, according to our latest eastern advices, continues quiet and easier in the seaboard markets, although prices are still maintained. We learn from Washington that a movement will probably be made toward restoring the duty on Tea and Coffee, as it is claimed, and we believe it is true, that neither of these commodities were cheapened to the consumers by the removal of the duty.

GRAIN—There is some little inquiry for Wheat, mainly from country millers, but there is none here excepting that in the hands of consumers; however, while the market is possibly a shade firmer, in consequence, prices are no better; Penna and Ohio red, $1,12@1,15; and amber and white, $1,18@1,20. The Oat market is steady with more doing, but prices remain unchanged; 60@61 for good mixed and 62@63 for white. New ear Corn is coming in freely and it is dull and weak, as the demand is light and holders generally are anxious to realize; may be quoted at 68@70, (75 lbs to the bushel). Old ear Corn is also dull, as consumers are refusing to pay the difference between it and new; it may be quoted at 90@91. Old Shelled is fairly quotable at 90@93, according to quality, and the market is steady. Rye continues in limited supply and may be quoted steady at $1@1,05.

HAY AND STRAW—Baled continues to come in freely, although prices are without quotable change; $18 to $22 ₱ ton, according to quality. Wheat Straw, $12@14; Oat Straw, baled, $14@15, and dull.

ONIONS—$3@4 ₱ bbl.

POULTRY—Live chickens quotable at 50@60c ₱ pair, by the coop.

POTATOES—The market is stronger and prices tending upward; quotable at 85@90 cents ₱ bushel by the car load, on track. The arrivals for some days past have been comparatively light. Sweets unchanged at $3,50 to $4 ₱ bbl for Baltimores and $4,50@5 for Jerseys.

PROVISIONS—We can report a steady demand, especially for Lard and Hams, and as stocks are light and the receipts limited, prices here are maintained, notwithstanding the western markets are offish and the season is pretty well advanced. Following are the ruling quotations: Hams, 15 cents for plain and 14½ for canvassed; Sugar Cured shoulders, 12; Breakfast Bacon, 16½; Dried Beef, Sugar Cured, 15; Bacon Shoulders, 11½; Ribbed Sides, 15½; Clear Sides, 16½; Mess Pork, $25,00. Lard, in tierces; 16¼; in half barrels, 16¾; in bkts., 17¼.

TALLOW—Country, 7@7½; city, 8@8½.

SEEDS—Timothy Seed is quiet and unchanged at $2,90@3 ₱ bushel to the trade.

PITTSBURGH LIVE STOCK MARKET.

CENTRAL STOCK YARDS, EAST LIBERTY,
THURSDAY, Oct. 8, 1874.

ARRIVALS.

The arrivals of live stock during the twenty-four hours ending at noon to-day, were as follows:—Cattle, 93 cars; Hogs, 50 cars; Sheep, 18 cars, making for the week, from and including Sunday up until this writing: 373 cars Cattle, 172 cars Hogs and 91 cars of Sheep.

CATTLE.

The market has stiffened up somewhat since the date of our last report, and it closed considerably firmer than it opened, without, however, any quotable change in prices. We noted in our last issue that the Philadelphia men were holding off in hopes of being able to force a decline, but on Wednesday afternoon they discovered that they were on the wrong track, as buyers from other points were picking up all the best cattle, hence they were forced to back down from their stand off position, which they had adhered to up until that time. Sellers also realized that the market had turned in their favor, hence they stiffened up in their views, and, as a rule, they experienced no difficulty in closing out, and that, too, at full last weeks rates. A couple of months ago the Philadelphia men were able to influence the market, especially as regarded the better grades, as we were dependent upon them mainly to buy the kind in question, but now there is more inquiry for shipment to other points, and, in consequence, the selling interest are able to exercise more independence. Then, owners of good cattle, if they did not sell to the Philadelphia buyers, had to ship on east on their own account, but now there is more inquiry for good stock from other points, and, as the saying is, they (the sellers) have more than one string to their bow. While, as we have already stated, the market wound up more favorably to the selling interest than it opened, we do not wish it to be understood as saying that there was any advance in prices, as such was not the case, but we do claim that all the various grades brought fully as much as they did last week, although, towards the close, prime shipping stock were held with more tenacity and sold more readily, as there was more inquiry, and the supply was comparatively light. The best cattle sold to go East this week were bought by Simon O'Donnell for shipment to New York; he purchased 45 prime 1,484 lb Kentucky steers from John Judy at 6⅞; 11 prime 1,753 Southern Ohios at 6¾; and 10 good 1,627 State at 6,40. There was one bunch of fancy sold to go to Allegheny, the pick out of 4 cars, at 7¼, and another lot at 7 cents, but none of the Eastern men would have paid these prices, and they cannot, therefore, be taken as a criterion of the market. By the way, the Allegheny dealers have been buying all the cattle here they could lay their hands on, suitable for that market, and for fancy stock they are paying prices that the Eastern men cannot afford to give, and there is no question but what their presence and purchases have contributed somewhat to stimulate this, the East Liberty market. There is a continued steady demand for stockers and feeders, and the market for these grades has ruled steady for several weeks past and at very full prices, say 3 to 4 cents for the former; and 4½ to 5 and even 5½ for the latter, as to quality and condition. There was some inquiry for bulls by distillers, but prices remain about as last quoted, ranging from 2½@3¼.

The sales during the past twenty-four hours were 1,486 head, making for the week, 3,915; of these 73 cars were bought for Philadelphia, 21 cars for New York, 124 cars by country dealers; 18 cars by local buyers and 84 head by local butchers.

HOGS.

The most important feature we have to notice in connection with this class of stock is that there is a firmer feeling as regards heavy, fat, corn-fed hogs, as the supply of this character has been rather light for a couple of days past, although as yet there has been no advance. However, as intimated in our report of Wednesday, unless there are increased receipts of this character in the meantime, prices will rule higher within the next 24 hours. The feeling has prevailed for some two or three days past that the market for the class of hogs in question had touched bottom, and the indications at this writing are that the next change will be upward. The high price and active demand for Lard is stimulating the market for this class of hogs, and as long as the market for the former maintains its present position, it is not likely there will be much of a depreciation in the latter. The supply of light hogs, however, is still fully up to the demand, hence the market is quiet and prices unchanged, ranging from 5¾@6¼ for fair to prime Yorkers, averaging from 180 to 210 lbs. Scalawag stock, of which there is a supply in excess of the demand, continue dull, and they are difficult to dispose of at anything like a satisfactory price to owners. Shippers won't touch them except at very low rates, say 4½@5—this a bad market for this kind of stock.

SHEEP.

The market closes steady, with the pens pretty well cleared, there was but a single deck remaining unsold when we left the yards, notwithstanding some holders were a little weak in the knees on Wednesday, but, as noted in our last report, prices, as compared with last week, are without quotable change. The "run" was a little larger, but then there was an increased demand, everything sold just about as fast as it came in, and upon the whole, the market appeared to be satisfactory all around. Prime open wool, 110@115 lbs quotable at 5½; good 90@95 lbs., fine wool, 5@5¼; 100 lbs do, of which there were none on sale this week, 5½; 80@85 lbs, 4½@4¾; 70@75 lbs, 3½@4¼. Scalawags, $1,50@1,75 per head. Lambs, 60@65 lbs, 6; 40@50 lbs, 5@5½ cents.

Dry Goods.

NEW YORK, October 8.—Business continued irregular with commission houses, and the jobbing trade was inactive. Brown cottons are in better demand, and there is increased inquiry for sheetings and drills for export, with large transactions. Fancy Madder prints are fairly active, but side bands are depressed. Ginghams are less active. Dress goods are doing well. Shawls and hosiery are dull, and foreign goods sluggish.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, Oct. 8, 1874.

The Crude market was weak and lower; quoted at $1,05@1,02½, against $1,10@1,12½ on Tuesday and Wednesday. Refined, also, is weak and dull, and, as compared with the early part of the week, prices are lower; reliable advices from New York reported offers to sell latter part of the month at 12⅛. A New York paper of Wednesday says in regard to refined: "The recent advance in prices, due largely to a combination among holders, has been followed by a quieter market. Vessels have been very plenty, and low rates have been accepted for European ports, and exchange has been higher; but these advantages have not been sufficient to compensate to shippers for the higher prices asked and the large stocks abroad. At to-day's market, prices were firm, but business quiet."

Some of our refiners, including the Central and Petrolite, have commenced to ship on the Connellsville Railroad. Shipments can be made to Philadelphia by this route also, and much cheaper than by the Penna Central.

The Barrel trade continues very quiet and prices remain unchanged; countries, $1,30; city make, $1,45.

New York Produce Market.

NEW YORK, October 7.—CHEESE.—Receipts for the week, 55,635 boxes; do. last week, 67,501 do.; same week last year, 28,075 do. Exports past week, 44,268 boxes do. last week, 41,531 boxes; same week last year, 34,663 do. Gold closes at 110⅛. Cable quotations 66s for Liverpool. Beerbohm report 61s 6d for Liverpool, and 65s for London. Choice has advanced, but, with the high rates reported from the interior, sellers are in no hurry to part with stock. Shippers are offering 16½ cents for stock on hand, and the price was several times refused; dealers are at a loss to account country rates, unless the samples have unusual degree of excellence for every stock. At Little Falls, on Monday, boxes were reported at 15@15¼c for factory, and 13½@15c for good to best dairies. At Utica the market was excited; sales given at 5,000 boxes at 15@16¼c for fair to good and 15¾ cents for fine; several noted factories exceeded 16c, and actual sales of 300 boxes were reported at 16¼c.

EGGS.—Receipts for the week, 7,800 7brls; do last week, 9,018 do; same week last year, ,712. Some moderation in receipts and better weather for holding have given the market a steadier phase than it exhibited early in the week, and it is likely that sellers will contend for full prices. Some parcels show long keeping. Quotations: N. J. & L. I. ₱ doz, 27@28; State and Penn, 25@26; Western choice, loss off, 24@25; Western fair marks, loss off, 22@23.

BUTTER.—Receipts for the week, 27,200 packages; do. last week, 22,718 do; same week last year, 18,840 do. Exports past week, 1,141 firkins. A buoyant feeling has prevailed in the Butter market throughout the week, and our advanced figures have been current for the past three days, showing decided strength at the close for the fancy lines of Fall make—fine pails or goods dairies. The medium grades of Western stock are showing some weakness, as receipts are more liberal, and the offering has the addition of lots that have been speculatively held. These are now released, and are making a profit for owners. The general receipts show some increase, but nothing of moment, when the enlarged wants of this month are considered, and particularly as we started with very little surplus on the opening of the month. The weather is very favorable for Butter, and a good many lots can be shown with more confidence than before. Quotations: Western half tubs, prime, 32@34; Western fair to good, 26@28c; Western poor to fair, 23@25; Western dairy packed, 35@37; Western firkins, prime, 31@33; Western firkins, common, 23@25.—*Tribune*.

New York Wool Market.

NEW YORK, Oct. 7.—Notwithstanding the unsatisfactory reports as to the position and prospects of the market for Woolen Goods, the raw material rules very firm in price, on restricted offerings of stock, particularly of the more desirable qualities. Holders are anything but eager sellers, some of them not offering supplies at all, as they anticipate a stronger range of values later on. Manufacturers, at present, are purchasing wool as they need it for prompt use, and generally in limited amounts, which, however, make a fair aggregate. The available supply of Texas Wool is much reduced. Domestic Pulled and new clip California Fall Wool is arriving rather more freely and meeting with comparatively prompt sale. Sales have been reported since our last of equal to 84,000 lbs. Domestic Fleece, in lots at 48@56c; 61,000 lbs unwashed at 36½@42½c; 24,000 lbs washed at 57@60c; 28,000 lbs scoured at 75@82c; 22,000 lbs combing at 52½@62½c; 119 pks and 31,000 lbs Domestic Pulled at 33@48c; 20,000 lbs Colorado, 50 bales Donskoi, 5,500 lbs Mexican and 25,000 lbs New Zealand, on private terms; 34,000 lbs Georgia at 34@40c; 100 bales Oregon, part at 43c; 127 bales California Fall, new clip, at 25½@27½c; 125,000 lbs and 315 bales California Spring at 24@36c; 41,000 lbs Texas at 24@31c; 10 bales Cape at 35½c; 120,000 lbs Australian, part at 52c, and part to come from Boston, on private terms; 20,000 lbs Foreign Carpet at 19c, and 7,000 lbs Noils at 42@45c.—*Times*.

GEORGE H. ROHE,
Sergeant, Signal Service, U. S. A.

The stage of water last evening was two feet three inches, a decline of two inches during the 24 hours ending at that time. Weather continues cloudy and threatening rain. Business at the landing continues suspended.

—Wednesday's *Commercial* says: The Charlie McDonald arrived from Pittsburgh, having picked up on the way a keelboat loaded with fire brick. She was getting a tow of empty barges ready to return up the river with......The Etna, with a tow of barges, grounded on Four-mile bar. She three barges of coal on Four-mile......The A[illegible] ton, Captain Dan. Moore, has been dropped [illegible] the New Orleans and Memphis wharfboat [illegible] for the latter point. Her Cl[illegible] Pittsburgh to- [illegible]

which [illegible] summing up the evidence [illegible] taken the testimony of twenty-four witnesses, including that of four of the passengers, and after a careful review of the same, we regret to state that we have been unable to definitely ascertain the origin of the fire, but we think it must have originated from one of the following causes, viz.: Carelessness of persons smoking upon the main deck, by which means it was communicated to a portion of the cargo, near the after part of the boat, or from some accident of an unknown cause in the lamp-room."

......The Tom Means left Ironton at 3 P. M., with six barges of Ashland coal, one barge of pig iron, and one of Chesapeake and Ohio Railroad freight. When opposite Union Landing she burst one of her cylinders, landed her tow at Fulton Landing, left the coal, and took the remainder of her tow and left for Cincinnati on one engine.

—The Cincinnati *Commercial* of Thursday says: "Captain H. G. Summers has contracted with T. C. Dumont for the machinery for his new South American steamer "Triumph." The cylinders will be 24 inches in diameter, with 6 feet stroke, with 5 boilers, 46 inches in diameter, 22 feet long, each containing 10 8-inch lap-welded flues. The whole of the machinery is to be shipped to South America, and placed on a steamer on the Magdalena River......The wreck of the Allegheny Belle was knocked down to Arthur Moore for $1,800, and the machinery of the Wild Wagoner to C. T. Dumont for $455. The J. W. Garrett and barges will be sold by the Marshal to-day......The James Gilmore and tow arrived from Pittsburgh. The Champion No. 8 was sent up to help the Etna and tow, aground at Four-Mile, and succeeded in getting three of the barges over, returning Tuesday night. The Etna brought the three barges down, and returned up the river to assist the Tom Means, which boat burst a cylinder. Three of the remainder of the Etna's barges at Four-Mile are in a damaged condition, two having their sides broken in, and one having broken in two. She left seven barges there. They are loaded with coal......The R. W. Skillinger dropped down to the wharf yesterday, but Captain Russell has concluded not to leave until there is more water. He will depart for Pittsburgh as soon as there is more water.

—The Cairo correspondent of the Cincinnati *Commercial*, telegraph as follows under date of 6th:—The Paragon got out yesterday morning after much tribulation and a heap of hard work. Capt. Darragh at one time feared that he was destined to stay at Powers' Island until the river should rise. After getting all her freight off on two barges, the John Means and DeRussey had all they could do to pull the Paragon off the bar. Her cargo is mainly as follows: 7,768 bbls flour and meal, 696 bbls apples and potatoes, 1,648 sks grain and bran, 379 bales hay, 200 bbls pork. The deck hand N. C. Benrey, who died in a fit on the Paragon yesterday morning, was once mate on the R. R. Walsh and other steamers, and ran much of his time on the Arkansas River. He has a brother, J. W. Henrey, residing in Windsor, Morgan country, Ohio. The Paragon cleared just before dark, having been detained here fixing a rudder band that was sprung by passing over a Wreck in Bird's Bend.

—St. Louis advices under date of 6th report business dull. The Bismarck and Belle of Shreveport, which are advertised to leave for New Orleans to-morrow, will not get away till Saturday. The Local Board of the Steamboatmen's Association held another meeting this afternoon, but came to no understanding as yet. The city is full of strangers visiting the Fair. Very little produce is coming in from the upper trade, and the outlook is discouraging to boatmen.

—The Dubuque *Herald* of Monday says: "Business is improving all along the river; freight offers in increased quantities both ways, merchants well knowing that what is not moved before the river closes, an event not two months distant, will have to remain until Spring or pay dearer rates by rail, and they begin to have more life in shipping and receiving."

—The river has been falling so fast that Four-Mile was disastrous to towboats yesterday. The Etna, coming down with ten barges of Ashland coal, stuck her whole tow there, sinking three barges. One barge was broken in two, and two had their sides broken in. Three lay above the Kentucky crossing, and seven below. The Champion No. 8 went up to assist the Etna.—*Cincinnati Gazette*, 7th.

—The most important measures adopted at St. Louis, so far as made public by the steamboat owners, in addition to those heretofore given, were the adoption of resolutions to confine steamboats to their own legitimate trades, to appoint an executive committee, consisting of three members from St. Louis, one from Cincinnati and one from Louisville, to enforce the orders and rules of the association.

—The New Orleans *Republican* of Friday has this important item: The British steamer Lalande Williams, from Rio Janeiro, brought 14,300 sacks of coffee, consigned to Messrs. Pim, Forwood & Co. This is said to be largest cargo of the berry brought to this port since the war. As it came in a steamship the event is quite notable.

—Friday morning about 2 o'clock, while on her up trip, the steamer Hale struck a snag in Alabama River, one mile above Tompkin's Bluff, and sunk in ten or twelve feet of water. It is thought that she can be easily raised.

—The B. H. Cooke has pulled out the Anna log at Slim Island, and dragged it around under the reef, where it will be out of the way forever. It was a sycamore, sixty feet long, and about thirty inches in diameter at the butt.

—The railroad at Paducah is giving through bills of lading to New Orleans on tobacco at thirty cents a hundred.

—The City Council of Evansville has passed an ordinance exempting from wharfage all towboats landing there exclusively for stores.

—A new boat, the re-built Eau Clair, of Evansville, is to enter Wabash River shortly, and will make through trips from Evansville to Clinton.

Temperance Lecture.

Mrs. Banes, of Springfield, Ohio, will deliver a lecture on "Political Prohibition" in the First Presbyterian Church, Allegheny, (Dr. Swifts) this evening at eight o'clock. It will be remembered this lady delivered an address before the State Convention of the W. C. T. U. held in Library Hall last June, which not only showed her ability in an argumentative point of view but was characterized by genuine wit which is unfrequently surpassed. She is one of the brilliant minds of the "Buckeye" State, and no doubt those hearing her will enjoy a rich treat.

Argument on the Rising Mains Contract.

In the District Court yesterday morning, Judges Ewing, White and Kirkpatrick on the bench, the case of Geo. Finley against the city of Pittsburgh and its agents, and Jared M. Brush & Co., being an application for a preliminary injunction to restrain the awarding of the contract for rising mains for the new water works to said Brush & Co., came up for argument. The case was argued in behalf of the plaintiff by Messrs. Sutton and Parker, and Messrs. Bigelow and Slagle appeared for the defendants. When the argument was over the Court took charge of the papers, and promised an early decision. Judge White expressed himself as opposed to granting the injunction.

Suicide in the Allegheny Lock-up.

A woman by the name of Mrs. Mary Kelly committed suicide night before last in one of the cells of the Allegheny lock-up. She had been arrested for drunkenness, in her house on Strawberry alley, and was locked up for a hearing at 9 o'clock yesterday morning. When discovered she was found suspended from the iron bars above the door of her cell, with a piece of her clothing around her neck, answering the purpose of a rope, and a stool that she stood on to accomplish her end was lying some distance away, where it had been pushed with her feet. After being cut down she gasped but once, and all was over.

The deceased has a husband who lives in Youngstown, where he had gone, on account of her drinking habits. She has three children, two of whom were living with their mother, and the other is with its father at Youngstown. The deceased was a young woman, being only thirty years of age.

Coroner McCallin held an inquest upon the body yesterday afternoon, and after the witnesses had stated the facts in the case, the jury rendered a verdict that the deceased came to her death by committing suicide.

MILL MEN OUT.

A few Employes of the Wayne Iron & Steel Works Object to Reduced Rates.

Yesterday, according to announcement made, a new schedule of prices went into effect in one of the special departments of the Wayne Iron & Steel Works, on Duquesne Way and Tenth street. The proprietors of the mill, Messrs. Brown & Co., finding they could not run the department at the high rates recently prevailing, without a positive loss, made a proposition for a reduction, in order to keep the men at work and the department running. It was to go into effect yesterday morning, but none of the employees interested, appeared, and so that part of the mill was not in operation—although the remainder was running as usual. The men who are out, are about thirty in number.

COUNTY TAXES.

The Books Closed at the Treasurer's Office—How the People Paid Up—The Balance Uncollected—The Books in the Hands of Collectors.

The business at County Treasurer Kilgore's office has about resumed its normal condition. The large force of clerks, who were kept busy during the height of the season, have disappeared, and the Treasurer and Mr. Patterson, his assistant, manage now to hold business on an even balance.

From the Treasurer we learn that the amount of outstanding taxes now is $106,606.61 as against $129,231.23 last year at this time. The people this year paid up promptly, and the aggregate shows better than has been the case for several years, which is certainly a very gratifying result. About nine-tenths of the taxes outstanding are personal taxes, of which perhaps one-fourth will be lost.

There are now no taxes received at the County Treasurer's office, as the books have been put into the hands of the collectors in the wards who will commence at once the work of gathering in the fragments.

ROBERT WATSON'S WILL.

A Magnificent Bequest to the Western University—The Deceased's Real Estate Not Distributed.

Yesterday morning the will of the late Robert Watson, the scholarly lawyer and millionaire, was filed in the office of Register Gray. According to its provisions the magnificent library and walnut library cases which deceased possessed is bequeathed to the Western University. The library is given on the condition that the trustees shall accept it within six months, and sign an agreement to carry out the provisions of the will in regard to it. They are that it shall be kept separate and distinct as a gift from him, and that a room or rooms shall be provided for the books in the college building. The trustees are also given five hundred dollars. The library is accompanied by a catalogue, which arranges the books under the following heads: "Encyclopædias — Dictionaries of Reference," "Scripture Sacra," "Dictionaries and Grammars," "Geometry—Analysis," "Physics—Applied Analysis," "English Literature," "History," "Geography—Travels," "Greek Literature," "Roman Literature," "Modern Latin Authors," "French Literature," "German Literature." According to this catalogue there are 2,345 volumes, but as it was made out some years ago, and as there have been many additions since then, it is thought the actual number will not fall far short of 3,000. The library is estimated to be worth from $20,000 to $25,000.

The balance of his personal effects, exclusive of stocks, money, bonds, &c., is divided equally between his sister, Jane Magee, his nephew, Christopher Magee, and his niece, Jane W. Magee. Christopher Magee is appointed executor. The will is dated, October 5, 1870. The document makes no disposition of the moneys, bonds, &c., excluded from the last bequest, nor of the real estate of decedent.

THE MOUNT PLEASANT CAMP.

A Congratulatory and Commendatory Order from the General Commanding.

The men of martial valor who withstood the tempest and rigors of camp-life in a rainy season at Mount Pleasant last week will appreciate the following which has just been issued:

GENERAL ORDER NO. 17.
CAMP SHERMAN,
HDQR'S 8TH DIV., N. G., OF PA.,
October 3, 1874.

The General commanding desires to express his thanks to the men of this Division for their conduct in camp, under the most discouraging circumstance of bad weather; and for their soldierly bearing, attention to and prompt obedience of orders; and earnest endeavor to render the general inspection creditable.

He has the greatest pleasure to inform them of the fact that the commander-in-chief, Governor John F. Hartranft, and his Adjutant, Major General James W. Latta, both expressed themselves will pleased with their visit to Camp Sherman, and with the drill, discipline, and deportment of the troops.

He tenders his personal thanks to the members of his staff, and to the field and line of the Tenth Infantry.

The General commanding hopes that every man and each officer in the division will so conduct himself as to merit the respect and renewed confidence of the State, and of their fellow citizens; and each individual will endeavor to assist the efforts of Pennsylvania to make of her National Guard a body of efficient soldiery.

By command of Thomas F. Gallagher, Commanding Eighth Division, National Guards of Pennsylvania.

CHILL W. HAZZARD,
Div. Ass't. Adjt. General.

RESOLUTIONS OF RESPECT.

The Death of Mr. S. M. Kier—The Funeral Yesterday—Resolutions.

Yesterday afternoon the funeral of the late Samuel M. Kier took place from the family residence on Butler street, Eighteenth ward. An immense concourse of friends gathered on the occasion to pay the last mark of respect to the memory of one whom in life they had held in highest esteem. The services were conducted by the Rev. B. F. Brooke, D. D., pastor of Christ M. E. Church, who was assisted by a number of the Methodist clergy from other churches in the city. The remains were buried in Allegheny Cemetery.

RESOLUTIONS OF RESPECT.

At a meeting of the Board of Trustees of the Pittsburgh Female College, called on the occasion of the death of Mr. Kier, the following resolution were read and passed by a unanimous vote:

Resolved, That we have learned with heartfelt sorrow of the death of our beloved co-laborer in the cause of education, Samuel M. Kier, for many years Vice-President of our Board.

Resolved, That we hereby record our high estimate of him as a presiding officer, a gentleman and a Christian, and share with thousands in profound sorrow for the decease of one whose life has been a benediction to all who have been associated with him in social or business relations.

Resolved, That in the death of Samuel M. Kier, the College has lost one of its earliest and most ardent supporters; the city of Pittsburgh one of its most public spirited citizens; the Church one of its purest minded and most devoted members; the State one of its noblest representatives, and his family one who has left them that richest of all legacies, the savor of a good name.

Resolved, That we will attend his funeral in a body.

Resolved, That these resolutions be published in the Pittsburgh *Christian Advocate*, and in the daily papers of the city.

Resolved, That a copy of these resolutions be engrossed, and presented to the family of the deceased.

Resolutions of a similar character were also passed at a meeting of the Board of Directors of the New York and Cleveland Gas Coal Company.

ANOTHER STARWARD SAUNTER.

The Ladies' Last Chance—The Final Balloon Ascension To-day—An Interesting offer by Prof. Donaldson.

The unalloyed pleasure with which the ladies who went a "ballooning" speak of their starward saunter, has induced the genial aeronaut who holds the helm of the good ship "Barnum," to yield to general desire, and make another, and final ascension, this afternoon, for the express accommodation of the ladies. It is proposed, if possible, to take a larger amount of the precious cargo, than weighed down the Gossamer vessel on the first occasion, and it is thought, with the arrangements made, that at least seven ladies can enjoy the exhilrating pleasures of a sail in the air and to the home of the clouds. Already the excitement in femine ranks runs high, and there are twenty applicants on the list, comprising ladies of the highest respectability, and representatives of our best society. Of course it is not possible to take all who are recorded, but the proposition is to commence with the first applicant and run down the list until the full complement is obtained. Prof. Doladson will be accompanied on the trip, as usual, by Mr. Thomas.

And then as if all that was not enough Professor Donaldson caps the climax with a proposition that for liberality and attractiveness almost takes one's breath. He has had an opportunity to become somewhat cognizant of the dazzling beauty, the queenly grace, the mental superiority and in a word, the bewitching loveliness of the ladies of our community, and like every worthy visitor here has given the best possible evidence of his wisdom by announcing himself as ready, yea anxious, to sacrifice himself upon the hymeneal altar with any of our fair representatives who will take him as he is—balloon and all. The only condition he attaches to this offer—which is free to all, for he knows he can make no mistake where all are so perfect—is that the lady who is willing to start with him on the connubial journey for coming time, consents to take the trip skyward with him to-day, and have the hymeneal ceremony performed where the stars can hear and see. What an exquisite poetic fancy that—; to have a loving pair lifted spiritually and literally above the sordid cares and tumult and strife of a vain and wicked world, and then as they float almost within sight of celestial landscapes, and feel the invigorating airs from Paradisaical bowers, to have their lives crowned with supremest bliss, while angelic harps evoke the gladsome melody of the Wedding March, and all the happy sylphs of cloudland join in the song of congratulation and cheer. What a glorious wedding that would be—who will help the Professor—who will help to make his visit to Pittsburgh, the happiest of all his meanderings through this world of care. Let the heroine step forward this afternoon before Professor Donaldson and his groomsman Thomas, start with their balloon,—starwards.

THE COURTS.

YESTERDAY'S PROCEEDINGS.

State Supreme Court.

(*Chief Justice Agnew Presiding.*)

James B. Hill and Robert Stewart, plaintiffs in error and defendants below, vs. Cohen H. Prescott. Error to the District Court of Allegheny county. Argued by Brown and Marshall for plaintiffs in error, and Barton and D. W. Bell contra. The action was for trover, brought by Prescott against Hill and Stewart, for the recovery of damages for the alleged detention and conversion of four hundred thousand feet of pine boards brought from Jefferson county to the city of Pittsburgh. The plaintiff below introduced testimony in chief to prove that the lumber in controversy was of a superior quality, when the defendants offered the deposition of Charles C. Baxter to contradict and rebut the testimony. Plaintiff objected and the ojection was sustained. The deposition was used in a former suit, wherein the same matter was in dispute. The plaintiff below was defeated on the final hearing of the first suit in which he used the deposition as evidence; and then he brought this suit, the subject matter in controversy, the plaintiffs in error claim, being exactly the same. Four other specifications are made by the plaintiffs above.

THE CONDUIT COMPANY'S CASE.

On the first day of the Supreme Court, Mr. Marshall, counsel for the Columbia Conduit Company, made a motion for the advancement of the case on the ground that the case was one of great public importance. The Court took the matter under consideration and yesterday refused the motion. While acknowledging the importance of the case, the Court did not consider it of sufficient importance to advance it on the list.

In the case of Joseph Brown vs. the Commonwealth, in the Eastern District, the application for an argument refused.

A COW CASE.

John McKinney, plaintiff in error and defendant below, vs. Edward J. Allen. Argued by Patterson for plaintiff in error, and C. B. M. Smith contra. This was an action to recover the value of a cow, which Edward J. Allen alleges was killed by the culpable negligence of John McKinney. Allen alleged that by an arrangement with McKinney he sent his cow to pasture in his (McKinney's) field, and while there, from the insufficiency of the fence, the cow got out and was killed on the railroad. The defense was that the pasture was not in possession of McKinney, and had not been for a long time before the cow was killed, but that it had been leased to his (McKinney's) son. McKinney, therefore, denied that he was responsible for the death of the cow. The jury returned a verdict of eighty-one dollars for Allen, and an appeal was taken.

ACTION AGAINST AN ENDORSER.

Nicholas Snyder, plaintiff in error vs. the Christian Radical Publishing Company. Error to the Common Pleas Court of Allegheny county. Argued by Mitchell for plaintiff in error and Cochran contra. The suit was brought by plaintiffs below against defendant below, who is plaintiff in error, as endorser on a promissory note alleged to have been dated June 27, 1871, for the payment of $79.25 to the order of Nicholas Snyder and purporting to have been made by one M. D. L. Hastings. After and under the name of Nicholas Snyder, as allleged endorser, appear the alleged copy of the note filed, the names of Thomas Powell, M. D. L. Hastings, John Shearer and the Christian Radical Publishing Company; but it is alleged that Thomas Powell signed his name as a witness to the endorsement of Nicholas Snyder, although there was no evidence of that fact at the trial, and the original note was said to be lost. The "Christian Radical Publishing Company" leased a building on Fifth avenue, and rented part of it to John Shearer. He sub-let a part to Hastings. They became in arrears for the payment of the rent and would not or could not pay it. After some delay Hastings and Spearer concluded to get Snyder to endorse for them. Accordingly Hastings took a blank note and went to Snyder and asked him to endorse the blank note, at the same time telling him that he did not know the exact amount that would be necessary to pay the rent, but that it would be between sixty and seventy dollars. Upon that representation, Snyder, who is an illiterate man, made his mark on the back of the note, after which Shearer, with the knowledge of the plaintiffs below, filled up the blank with the sum of $79.25, which not only included the rent, but bank interest, which then was ten per cent. The note was not paid by Hastings and Shearer, and Snyder as endorser was sued by the Publishing Company, and judgment had for amount of the note. Snyder claims that he never signed the note as endorser for that amount, and he never received proper notice of it being protested.

ALL ABOUT A LOST BOAT.

Hiram K. Hazlett, plaintiff in error and plaintiff below, vs. the Allegheny Insurance Company. Error to the Common Pleas of Allegheny county. Argued by George Shiras, Jr., for plaintiff in error, and M. W. Acheson, contra. In the latter part of March, 1868, the steamboat "Carrie" left St. Louis on a trip for Fort Benton on the Missouri river. Andrew Ackley and H. K. Hazlett, who owned the boat, and were then in Pittsburgh, insured their interests in the freight list in the Western Insurance Company of Pittsburgh and the Allegheny Insurance Company respectively, but in case it should turn out that Captain Kountz, also a part owner, who was then in St. Louis, had insured the freight list there, then the risks taken here should cease as they did not want double insurance. Ackley paid no premium at the time of effecting his insurance of $3,000 in the Western Insurance Company, nor was any written policy or memorandum issued by the company, nor was any entry made in the books of the company at the time. Two weeks after, Mr. Ackley, who was a director of the company, requested a memorandum to be made on the books, which was done. In regard to Hazlett's policy in the Allegheny Insurance Company, the testimony of the President of the company does not differ from that of Captain Hazlett in any essential particular, except that he understood that the risk was not to attach until and unless the company was notified by Hazlett either before leaving Pittsburgh, or on reaching St. Louis, that Kountz had not effected insurance there. Captain Hazlett shortly after left for St. Louis by river. At Evansville Indiana, he heard of the loss of the "Carrie," when some sixteen or eighteen days out, at a place about sixty miles below Sioux City. He then went by rail and arrived at St. Louis on April 21st. Here he found that Kountz had not effected an insurance on the freight list. He then gave Kountz an order on the Allegheny Insurance Company for the amount of the insurance less the premium. Kountz presented the order to the Company as soon as he arrived here, and within five or six days after he had received it at St. Louis The Company claimed in reply to the notification and demand that they had no risk on the boat. The Western Insurance Company paid Mr. Ackley in full, less the amount of premium. The amount of the freight list was shown to have been between $23,000 and $27,000 and that it was a total loss. The jury found for Hazlett in the amount of $3,050.50, but the Court ordered judgment in favor of defendant, on a question of law reserved, when a writ of error was taken out. The Insurance Company do not come into Court on a purely legal question, but deny that there ever was any contract at all. They understood the matter to rest in negotiation.

McKEE'S ROCKS RACES.

Third Day at the Pittsburgh Driving Park—Two Purses Competed For—Interesting Contests—The Programme for To-Day.

The third day of the races at McKees Rocks, was unusually interesting, and were greatly enjoyed by a much larger crowd of spectators than on any of the preceding days. The weather was very favorable, which brought out a fair representation of ladies, and as a brilliant display of speed was expected, the excitement of the crowd had reached almost its highest point. The track had been carefully scraped, and was in excellent condition, giving the horses an opportunity to make good time. In the pools, Philadelphia Boy and Mary Taylor seemed to be the favorites in the first race, and Lady Mack and Jack Draper in the second. At eleven o'clock, the race of the day before, which had to be postponed on account of the lateness of the hour, was finished, which resulted in favor of Frank, he coming off victorious in two straight heats. Time 2:37½ and 2:35. This was somewhat unexpected, as Lady Johnston seemed to be the favorite, and was considered the winning horse. The first race of yesterday, according to the programme, was billed for two o'clock. It was for horses who had never beaten 2:40, purse $800. There were nine entries, but only six horses started—Lookout, Granger and Gipsey Tom having been withdrawn. At the appointed time, the horses were called upon the track, and and a lively contest followed.

First Heat.—After scoring five or six times, the horses got off with Philadelphia Boy on a pace. Mary Taylor took the lead, but broke on the first quarter and was passed by Charlie Howe, Mary Taylor holding the second place, being lapped by Happy John. They passed under the half mile string in these positions, but on reaching the third quarter, Charlie Howe opened a clear gap of four lengths which, however, was reduced to two lengths and a half on the home stretch. Time 2:35.

Second Heat.—After scoring half a dozen times, the horses got a good "send off," when Billy Collins took the lead, but before reaching the first quarter was passed by Mary Taylor on the half mile stretch; she was lapped by Happy John, in which positions they passed under the half mile string, making it in 1:17 3-4; at the third quarter Happy John broke badly, giving Mary Taylor an advance of five lengths, which was reduced to a length on the last quarter, the mare winneing the heat. Time 2:37.

Third Heat.—After scoring four or five times, the signal was given, when Charlie Howe went to the front followed closely by Charlie Green, second, and Happy John, third. Before completing the first half mile, Charlie Howe lead by four lengths. Time on first half mile 1:18. On the third quarter Charlie Green and Mary Taylor had a lively contest for the second place, the mare passing him also passing Charlie Howe, who won the heat by three lengths, Mary Taylor second and Charlie Green third. Time 2:38. In this heat Happy John was distanced for foul driving.

The following is the summary:

Mary Taylor	2	1	2
Happy John	3	2	Dist. for foul driving.
Philadelphia Boy	6	6	5
Billy Collins	4	4	4
Charlie Howe	1	5	1
Charlie Green	5	3	3

Time 2:35—2:37—2:38.

It will be seen by the above that the race was not completed, as darkness set in and it had to be postponed until to-day at 11 o'clock.

The second race was for 2:30 Horses for a purse of $1,000. There were eleven entries but only eight horses started, Lady Johnston, Jerry Postle and Annie Collins being withdrawn.

First Heat.—After scoring ten times the word "go" was given when Jack Draper took the advance followed closely by Bawly Lewis passing under the half mile string in the same order. On the third quarter, the two horses, named above opened a clear gap of five lengths between themselves and those following. On reaching the third quarter Jack Draper was in advance of Bawly Lewis three lengths which he increased to five, but on the home stretch the distance was lessened to two lenghts, Draper winning the heat. Time 2:30.

Second Heat.—After skirmishing some time the horses got off with Jack Draper to the front, Bawly Lewis following second and Captain third. At the first quarter Jack Draper opened a gap of three lengths which he maintained to the half mile wire, making it in 1:15. On the third quarter Captain and Belle Brasfield had a hard struggle for the third place, but before reaching the home stretch the mare made a lively dash, passing Captain and in coming home passed Bawly Lewis, taking the second position, with Jack Draper a length in the lead. This was a splendid heat the horses working hard for the places which they occupied.

Third Heat.—After scoring half a dozen times Jack Draper went to the front on a pace, followed closely by Bawly Lewis. They held these positions until the half mile string was passed. On the third quarter Lady Mack made a brilliant dash passing to the second place, and on the home stretch she passed Jack Draper winning the heat by a length. Time 2:30.

The following is the summary:

King William	8	8	8
Jack Draper	1	1	2
Kitty Wells	5	7	7
Bawly Lewis	2	3	3
Belle Brasfield	6	2	6
Captain	3	6	4
Lady Mack	4	5	1
Frank	7	4	5
Time	2:30	2:30	2:30

This race was also postponed until 11 o'clock to-day, when it will be completed. In the third heat of the above race some difficulty was experienced in getting a driver for Lady Mack, as there was a little dissatisfaction manifested on the part of some as to her first driver. After some discussion, John McKee took the reins, and succeeded admirably in bringing her home in the lead.

To-day will close the fall meeting, and there is one race advertised for this afternoon. It is open to all horses that have never beaten 2:26, for a purse of $1,000. There are six entries, and a lively contest is expected. No doubt a great many will be present.

FIFTH AND LAST
Gift Concert,
IN AID OF THE
Public Library of Kentucky,
DRAWING CERTAIN ON
November 30th, 1874
$2,500,000 GIFTS.
100,000 Tickets! - - 20,000 Gifts!
This is the last Concert of the series. Four have already been given and nearly **Two Millions and a Half** distributed among the ticket holders. In the First Concert the principal gift, $35,000, was drawn by Jno. R. Durff, of Memphis, Tenn., now a resident of New Albany, Ind. In the Second it amounted to $75,000, and went to a club at Columbus, Ind., gotten up by Mr. T. C. Burgess. In the Third Concert, the First Gift, of $100,000, was drawn by Mr. L. H. Keith, of Kingston, Mass. In the Fourth Concert, Memphis was again the lucky holder of the ticket which drew the Capital Prize of $187,500, which was distributed among various clubs and individuals in that city.
In the Fifth and Last Concert, which comes off on 30th November next, the principal Gift will be $250,000, and it waits only the turning of the wheel of fortune to ascertain the fortunate possessors of the lucky numbers which will entitle the holders to such fortunes as $250,000, $100,000, $75,000, $50,000, $25,000, &c. Twenty thousand gifts, from $250,000 down to $50, will be distributed by lot among the ticket holders.
Whole Tickets, $50, Halves $25, Tenths, $5, 11 Whole Tickets $500.
The time is fixed and near at hand. This is the *last chance for easy fortunes*, and those who want to avail themselves of it have no time to lose.
THO. E. BRAMLETTE,
oc6:TF-S Agent and Manager.
